SPECIES

MAPLE

Maple is a hard wood with a close grain. It's grain pattern can range from a close vertical pattern to a wild arch-shaped pattern. In maple's natural state, colors may range from white to yellow and brown. These variations are sometimes visible under light finishes and should not be considered a defect.

GLAZE FINISHES

ALABASTER GLAZE

CHOCOLATE GLAZE

CARAMEL GLAZE

Glazed finishes are produced by applying a contrasting glaze finish coat over our standard finish. The glaze is then removed by hand wiping. This process leaves the contrasting glaze in the grooves and corners. A clear sealer is then applied. Each cabinet will have a subtle hand finished appearance. Our craftsmen take pride in the detail and quality of their glazed cabinets giving each a unique appearance.
